MONTENEGRO

There are over 290 km (180 miles, 156 NM) of unspoiled coastline, and around 70 km of sandy beaches. Montenegro offers great weather conditions for sailing; more than 250 days under the sun a year and typical Mediterranean wind conditions. The sailing conditions in Montenegro are fantastic for all levels of boating experience as the winds are moderate and the swimming temperatures are warm for most of the year. Holidaymakers can enjoy the typically long Adriatic summers starting from May to mid October.

DAY 1 : Check-in at Kotor. Sailing boats are based at the town marina in front of the old town. After strolling Kotor's old town, you should have warmed up enough for a walk up to the Castle of San Giovanni or Castle of St John for an amazing view of the fjord and a fabulous birds-eye-view of the Old Town of Kotor, Montenegro. There is a lot to see in the old city and a lot to learn about the European History as Kotor played an important role in numerous empires and therefore has a rich and diversified heritage. The splendid city wall, narrow streets, tiny squares and the Mediterranean mood make Kotor one of the most memorable stopovers in the Adriatic sea. The Natural and Culturo-Historical Region of Kotor is a UNESCO World Heritage Site. It encompasses the old town of Kotor (Italian Cattaro), the fortifications of Kotor, and the surrounding region of the inner Bay of Kotor.

DAY 2: Sail to Perast for lunch It is situated northwest of Kotor (Kotor-Perast 6NM). Near Perast there are two islets: one is called Sveti Đorđe (St. George) and the other Gospa od Škrpjela (Our Lady of the Rocks), and each has a picturesque chapel. Gospa od Škrpjela is open for visitors and particularly interesting given that it is the only artificially-built island in the Adriatic – it was built upon a rock (Škrpjel) after two Venetian sailors from Perast found a picture of the Virgin Mary on it in 1452. Sail to Tivat and stay overnight.
